Detailed Action

Claims Objection

Claims 1-3 are objected to because of the following informalities:

- (1) In claim 1, line 12, "an upper" should read --an upper blade--.
- (2) In claim 1, lines 12-13, "said upper" should read --said upper blade--.
- (3) In claim 3, line 4, "a position pin" should read --the position pin-- since it refers to the one previously cited.

Appropriate correction is required.

Claims Rejection - 35 U.S.C. 112, second paragraph

- 1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - (1) In claim 1, line 9, "the press block" has no antecedent basis.
- (2) In claim 1, "said vertical hole" (at line 10) and "said push block" (at line 19) lack antecedent basis.

(3) In claim 2, lines 1-2, "a pull rod is provide with a connecting head" is confusing. Are the pull rod and the connecting head cited herein in addition to the ones cited at line 8 of claim 1?

- (4) In claim 2, lines 2 and 3-4, "said connecting head" is vague. Is it the connecting head of the pull rod or of the lower blade?
- (5) In claim 2, line 4, "a push block" is vague. Is it in addition to the one cited at line 19 of claim 1?

Claim Rejection – Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claim 1 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 6 of U.S. Patent No. 6,684,761.

Although the conflicting claims are not identical, they are not patentably distinct from each other because they recite substantially the same invention with claim 1 of this
